THE RIEL REBELLION.

GRAPHIC SKETCH OF THE LEADER

OF THE REVOLT.

History of the Early Uprising and the

Present Troubles in the Saskatche-

wan Country from a Writer

in the Northwest.

[Special Correspondence.]

St. Paul, Minn., April 11.—Louis Riel, the

leader of the present revolt which is giving

the Canadian authorities so much trouble,

is a native of Manitoba, having been born

there 41 years ago, under the old Hudson

Bay regime. He is of French ancestry, but

has some Indian blood in his veins. He

is well educated, bold and insinuating

in his manners, and just the man to

lead the half-breeds. When the Hudson

Bay company sold the greater part of their

lands to the Canadian government in 1869,

Riel, who commanded the half-breed in-

terlopers, established a provisional govern-

ment, and all the property at the fort, and he

and his associates in the movement, became

possessed of thousands of thousands of dol-

lars worth of property. A number of loyal

settlers attempted to resist Riel, but they

were put down, and one Thomas Scott was

shot. When Col. Wolsley, now Gen. Lord Wol-

seley, and the Canadian militia, to the num-

ber of about 1,000, appeared in front of Fort

Garry, Riel fled and the provisional govern-

ment was dissolved. At that time some con-

cessions were made to the half-breeds of Man-

itoba, each of them getting 240 acres of land.

This satisfied the half-breeds of that province.

The present outbreak is owing to the fact

that the half-breeds of the remaining por-

tion of the northwest were not similarly

treated. What Riel now wants is to get for

the other half-breeds what the inauguration of

1869 got for the people of Fort Garry.

Our readers will be pleased to see a picture

of Louis Riel, the leader of the rebellion, in

the service of the law, to hold his office until the

regularly expires. She is a good looking

young woman. Anybody can see that with

half an eye. She is a tall, slender build,

with a fair complexion, and a clear blue eye.

She is a refined intellectual woman, who puts

on her dress, and she is a woman of a

person, and she gets the largest pay of

any woman in official life in the United

States. Her salary is \$4,000. She dresses

handsomely and fashionably, but plainly.

"LET THERE BE LIGHT: AND THERE WAS LIGHT"

FAYETTEVILLE, N. C., WEDNESDAY, APRIL 29, 1885.

might have answered the summons, accord-

ing to the terms of the summons.

The revolutionists gained their point, how-

ever. The dominion still remained with

them, and there was peace. The scene of the

trouble in the Saskatchewan country—the

cause the same. The district runs almost

1,000 miles along the river of the same name.

The half-breed's lands are divided into long

narrow strips, extending an immense distance

back from the Saskatchewan. This is the

privilege of a river frontage. A privilege

which they are ready to fight for. There are

about 24,000 Indians scattered through the

northwest, whom Riel hoped to win over to

his cause.

The map herewith of that portion of British

America north of Montana, Dakota and Min-

nesota shows the Saskatchewan country in the

northwest corner. From the Canadian

Pacific railway at Swift Current a trail is

marked by a dotted line to Prince Albert.

This is the route the Canadian troops ex-

pected to take, the distance being about 200

miles. Battleford, Carlton and Prince

Albert are situated on the north Saskatche-

wan river, and new the half-breed have

settled their farms east, along the half-breed

strip, and now the half-breed have

houses along it. In line along the river

bank. The government has removed the

country, laying it out into sections one

quarter of a mile square, and insist on the

half-breeds giving up their old homes and

narrow strips of land for square unim-

proved sections. This Riel and his followers

refuse to do; hence the revolt.

The first fight was at Duck Lake, 12 miles

east of Carlton. It was with the mounted

police and local officials. "Soldiers were

forwarded by the Canadian Pacific railway

to Qu'Appelle. At that point they left the

railway and marched overland northwest-

ward. Another body of troops under Gen. Mid-

dleton left the railway at Swift Current and

took the western route north. From Qu'Appelle

to Prince Albert the distance is 200

miles.

AFTER THE LODGE'S SECRETS.

Seeking Information in regard to Her

Husband's Doings.

"Good evening, sir," said a woman whose

face looked like a boiled salmon, with a

pickaxe nose and a voice that sounded like a

far-away echo from the hostesses, as she

addressed a young man who looked as if he

viewed her red hair and stern visage. "What

I want to see you for, is to ask you if you

are an Odd Fellow—that is, do you belong

to a lodge?" and she nodded her head toward

a building from which he had just emerged.

"Yes, sir," said the woman.

"What lodge?"

"The Odd Fellows."

"What lodge?"
